

DIVIDING SYSTEMS

DIVIDING SYSTEM

Personalized Dividing Systems

A Combination of Beautiful Design with Practical Function

- Cross dividers are easily moved on the lateral divider to adjust to the contents size.
- Space is optimized when flexible organization is possible.
- Various dividers and storage units can be used in combination to meet the user's preferences.

Quietness

Intelligence

Durability

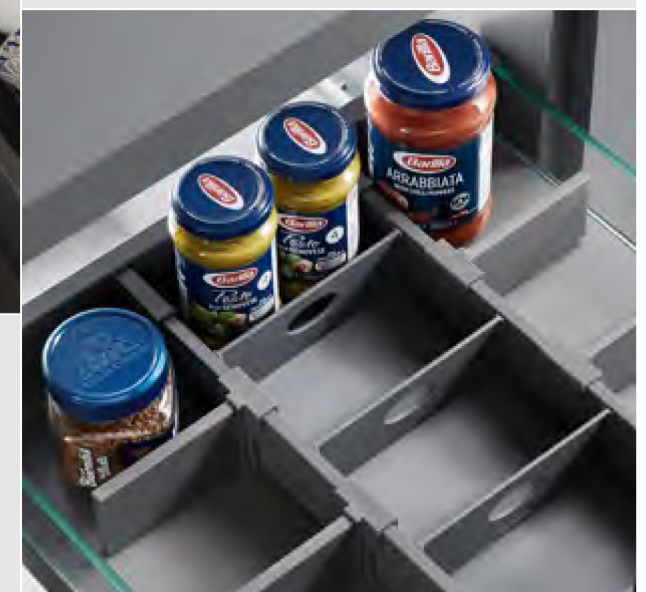

Eco-Friendliness

DIVIDING SYSTEMS

The high quality and attractive dividing systems organize bottles, cutlery, plates, etc. which are safely held in place as the drawers are moved.

Organization ideas are limitless when it's easy to change the layouts.

The flexible dividing system arranges storage space according to the user's needs and creates impressive order for a tidy kitchen.

All kitchen utensils are at a glance and food items are easy to access. Dividing systems promote the joy of cooking.
