D

Registrare il piedino di regolazione
Secure the adjustment foot

Istruzioni di montaggio: KIT CONNESSIONE A PARETE palo aperto Assembly instructions: WALL CONNECTION KIT open pole

Attacco a parete
wall mounting

A

Montare il kit piedino light inferiore al montante con elemento di regolazione completamente chiuso

Fit the lower light foot kit to the upright with the adjustment element completely closed.

B

1-Definire la posizione di fissaggio del traverso superiore tassellare a muro in posizione e bloccare al tassello il giunto di fissaggio
Define the fixing position of the upper crossbar fix it to the wall in position and lock the fixing joint to the wall plug

2- Bloccare il traverso superiore al montante con le apposite viti
Lock the upper crossbar to the upright with the appropriate screws

3-Innestare l'insieme montante + traverso superiore al giunto di fissaggio e bloccarlo con le apposite viti
Insert the upright + upper crossbar assembly into the fixing joint and lock it with the appropriate screws

C

Svitare il piedino fino a mettere in compressione il montante contro pavimento e soffitto

Unscrew the foot until the mount is compressed against the floor and ceiling.

Raccordo intermedio
Intermediate coupling

A

Montare il kit elemento di raccordo intermedio a muro prima sul palo ELLIPSE e poi provvedere al suo fissaggio a muro

Fit the intermediate wall connection kit first onto the ELLIPSE pole and then secure it to the wall

B

1-Definire la posizione di fissaggio del traversino supplementare tassellare a muro in posizione e bloccare al tassello il giunto di fissaggio 2

Define the fixing position of the additional crossbar .
Fix it to the wall with wall plugs and secure the fixing joint to the wall plug .

2-Inserire il giunto di fissaggio sul traversino e inestare il traverso andando a bloccarlo con l'apposita vite.
Insert the fixing joint onto the crossbar and insert the crossbar ,securing it with the appropriate screw.

3-Inestare il traversino al giunto di fissaggio 1 e bloccarlo con le apposite viti
Insert the crossbar into fixing joint 1 and secure it with the appropriate screws
