

Independent Secret Corner Mechanism

PRODUCT UPDATE

► Fixing Stopper

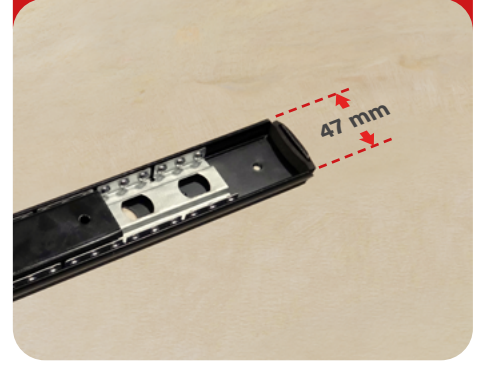

Creates a safe working clearance between the door and the basket.

► Guide Bracket

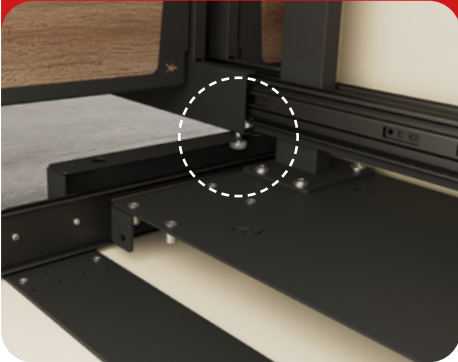

Ensures silent, stable, and controlled movement.

► 47 mm Rail System

Offers a higher load capacity and maximum stability.

► Open Position Lock

Securely locks the mechanism in the open position.

► Safe Working Clearance

Eliminates the risk of friction and collision.

► Door Collision Prevention

Ensures safe operation by preventing the baskets from contacting the cabinet door.
